VET390 – PROJECT MANAGEMENT

MODULE DESCRIPTION:

This module is designed to provide a job related approach to project management and specifically as it relates to software development. Managing software projects requires knowledge of project management fundamentals and best practices as well as familiarity with the life cycles and processes involved in software development.

The module also prepares students for the Project Management Institute’s Certified Associate in Project Management (CAPM) certification exam. Students with extensive work related project management experience might instead seek Project Management Professional (PMP) certification.

See additional exam information below.

Prerequisite Course: None

Upon completion of VET390 students should be able to:

- Employ fundamental project management skills
- Recognize software development life cycle (SDLC) models
- Describe professional project management and the ethical standards that guide the profession
- Understand the components of project initiation
- Plan project work
- Develop project schedules
- Develop cost estimates and budgets
- Develop project quality standards, resource needs, and communications
- Understand how to analyze risks and plan risk responses
- Understand how to monitor and control project work, schedules and costs
- Understand how to monitor and control project performance and quality
- Identify the Agile project management principals
- Utilize MS Project to manage projects
- Utilize the Scrum methodology to manage projects

3.9 **SS Course:** Communicating Project Information with Project 2010 (1.0 hrs) √
SUCCESSFUL MODULE COMPLETION REQUIREMENTS:

1. Full completion of each of the above topics and a minimum assessment grade of 80% where an assessment is designated as required.

Note: The advisor has the discretion to adjust requirements as needed on an individual student basis.

INDUSTRY CERTIFICATION REQUIREMENTS

Prior to taking the industry Certification Exam the following requirements must be met:

For Certified Associate in Project Management (CAPM):

- Prerequisite Industry Certification:
  - None

- Work and Education Requirements (minimum):
  - Secondary diploma and 1500 hours experience

  OR

  23 hours of PM education

- For further information, please visit:

For Project Management Professional (PMP):

- Prerequisite Industry Certification:
  - None

- Work and Education Requirements (minimum):
  - 4 year degree, 3 years of experience, 4,500 hours of leading, and 35 hours of PM education

  OR

  Secondary diploma, 5 years of experience, 7,500 hours of leading, and 35 hours of PM education
